## PROFILE SUMMARY

Aspiring Software Developer with a strong foundation in programming, UI/UX design, and cybersecurity. Passionate about building clean, user-focused digital experiences and continuously improving problem-solving skills through projects and internships.

## WORK EXPERIENCE

**Jagannath International Management School** JUL 25 - AUG 25  
CyberSecurity Intern

- Worked on CTF challenges involving OSINT, SQL/HTML/XML injection, and basic exploitation.
- Used tools like Kali Linux, Burp Suite, Nmap, SQLmap, Metasploit, GHunt, and Holehe.
- Completed multiple TryHackMe modules on networking, web security, and pentesting basics.

**Codsoft** JUN 25 - JUL 25  
UI / UX Design Intern

- Designed mobile app flows, email templates, restaurant menu UI, and an e-commerce website in Figma.
- Created wireframes, prototypes, and responsive layouts following brand guidelines.
- Strengthened skills in UI patterns, typography, color, and user-centric design.
